BT Parental Controls

Features and Benefits

BT Parental Controls allow you to restrict certain types of websites on all devices connected to the BT Home Hub and when connected to a UK BT WiFi hotspot using a BT ID. Its features include a Strict, Moderate and Light filter, the ability to block individual categories or sites, plus a Homework Time setting that can block social media, gaming and homework cheat sites at certain times.

What specific content can I restrict?

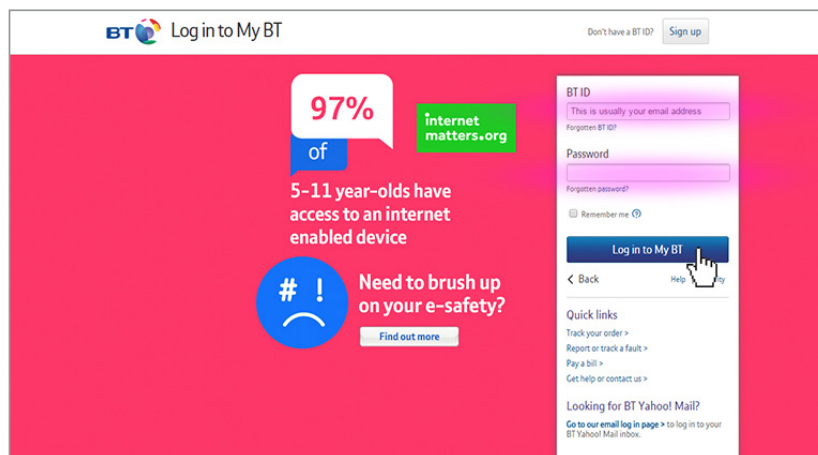

What do I need?

A My BT account (BT ID and Password)

If you haven't signed up, you will need a contact email address and your BT account number (found at the top of your bill)

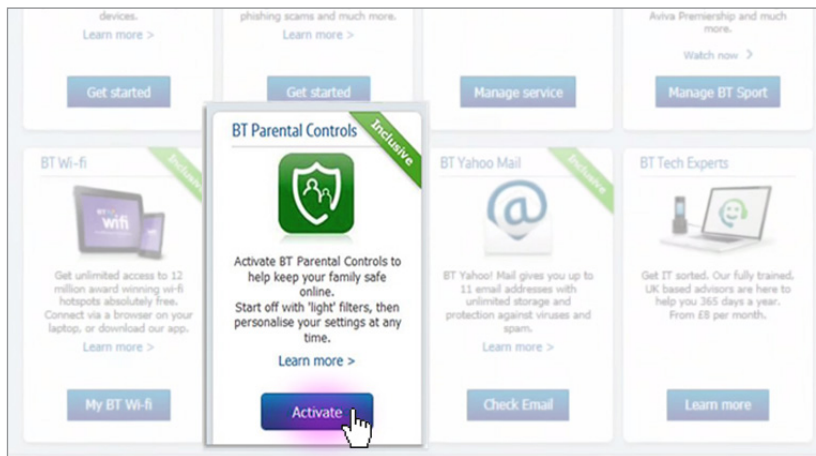

Step-By-Step

- 1 Go to home.bt.com/login/loginform and log in using your BT ID and Password. If you haven't got an account click the 'Sign up' button.

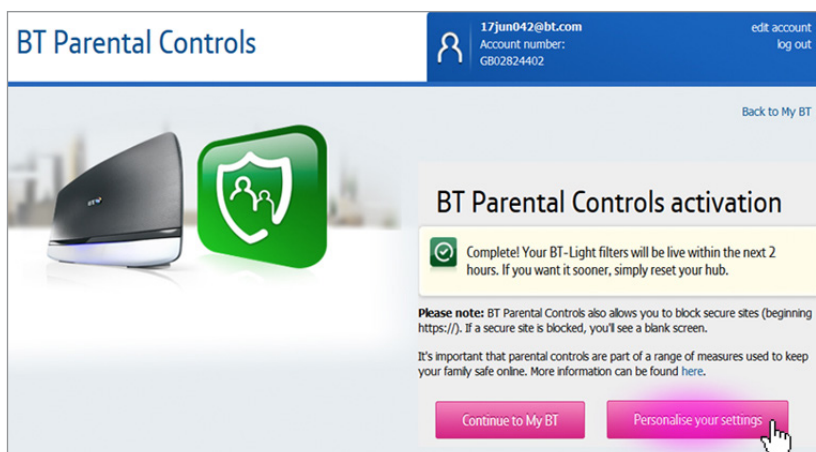

2 Scroll down to 'My Extras' and click 'Activate' in the BT Parental Controls panel.

3 You will then see a page telling you that BT are activating your Parental Controls. You will be activated with the 'light' filter setting. A confirmation screen will appear to confirm this. Set up may take up to 2 hours.

4 Once activated, you can then select 'Personalise your settings' to create custom settings.

5 You will then be able to change your filter level to suit your family needs.
